For the past 15 years she has also worked as a professional portrait photographer serving primarily actors and models. In addition, Diane has introduced several associates into the local production market.

Through Yokes & Associates, Diane continues to offer her own personalized services as a make-up artist and hair stylist while networking with other skilled associates.

Upon request, she will also provide wardrobe consulting along with a wardrobe styling kit on set.

Diane believes strongly in continuing education and continues to update her kit with products and techniques tailored to meet the application demands of Hi-Definition digital media and live broadcasts.
